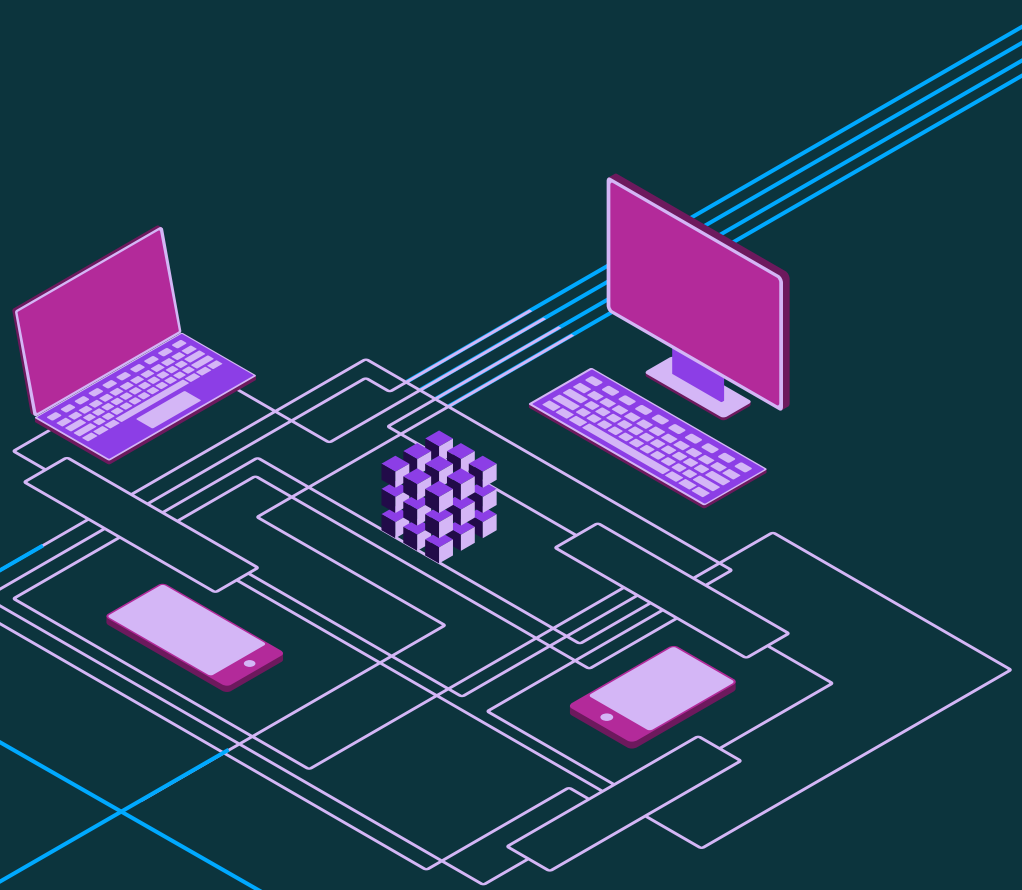
REGIONAL PERFORMANCE

Johnny, Miles & Rhi

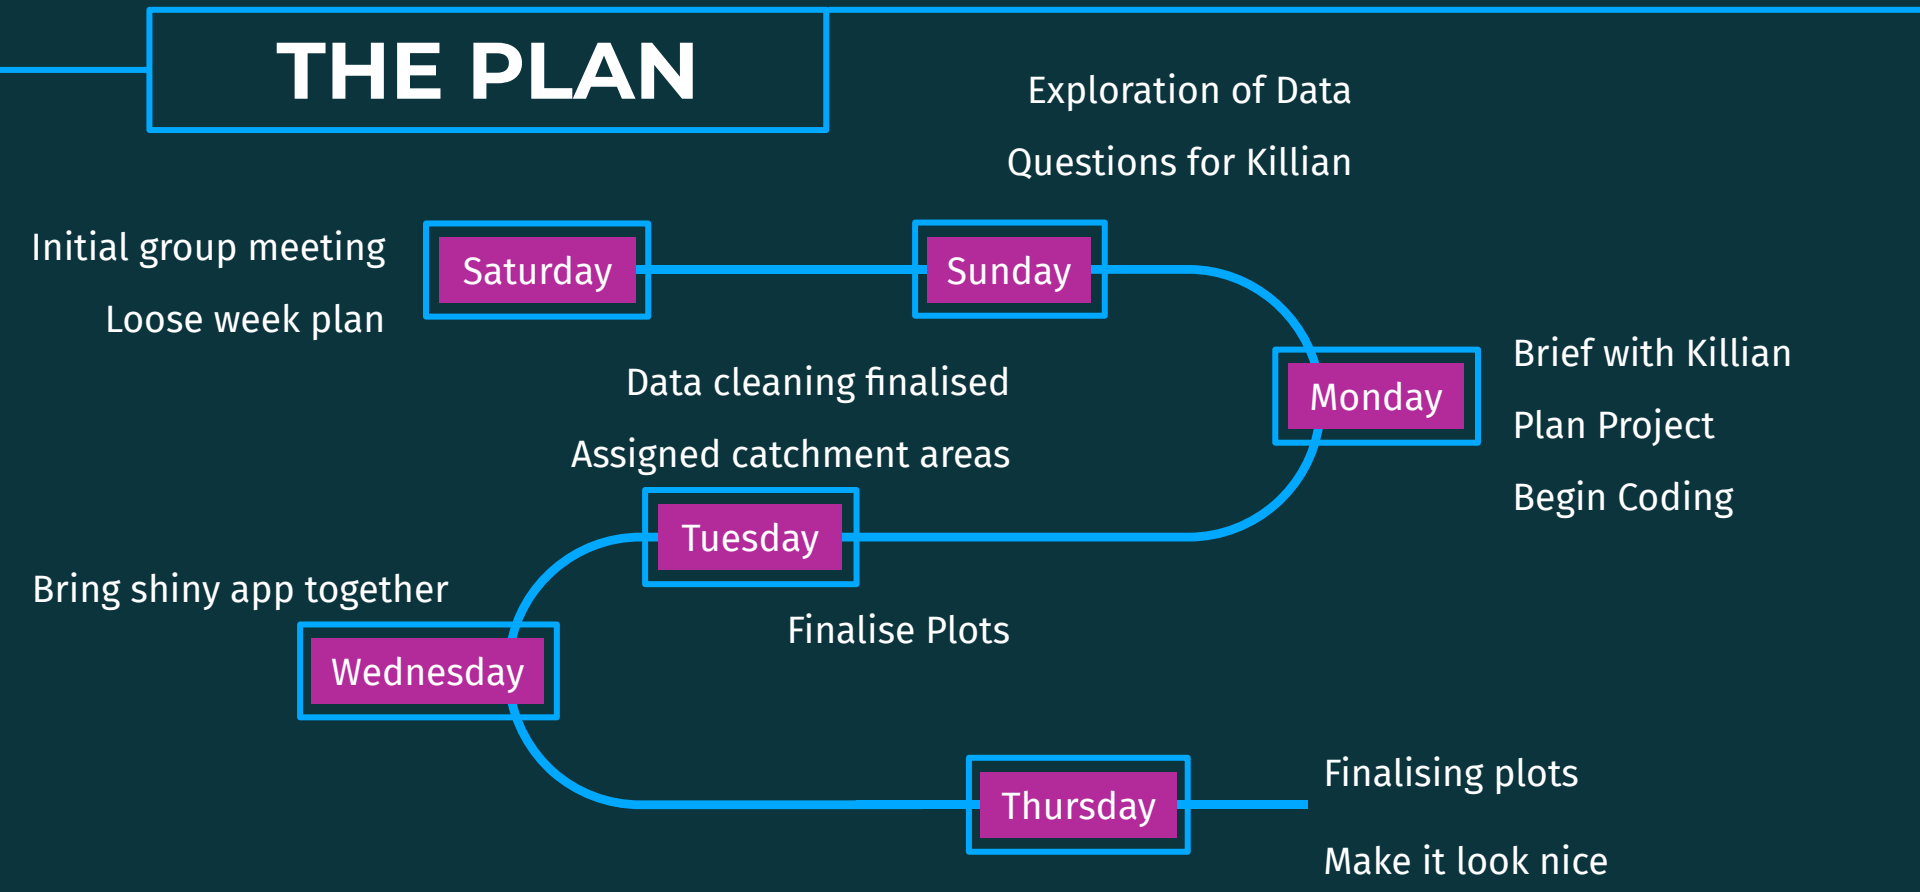


THE PROBLEM

Limited or no ability to compare site performance two or three locations in a single view

Be able to compare high-level site performance in a defined Edinburgh, Glasgow and Inverness catchments

THE PLAN



Initial group meeting
Loose week plan
Saturday
Sunday
Exploration of Data
Questions for Killian
Monday
Brief with Killian
Plan Project
Begin Coding
Data cleaning finalised
Assigned catchment areas
Tuesday
Bring shiny app together
Wednesday
Finalise Plots
Thursday
Finalising plots
Make it look nice

MVP

Pro View

Date range

2020-01-01 to 2020-03-31

Radius

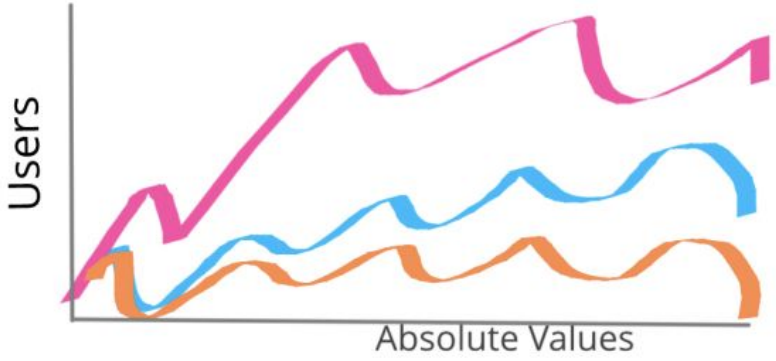
20km

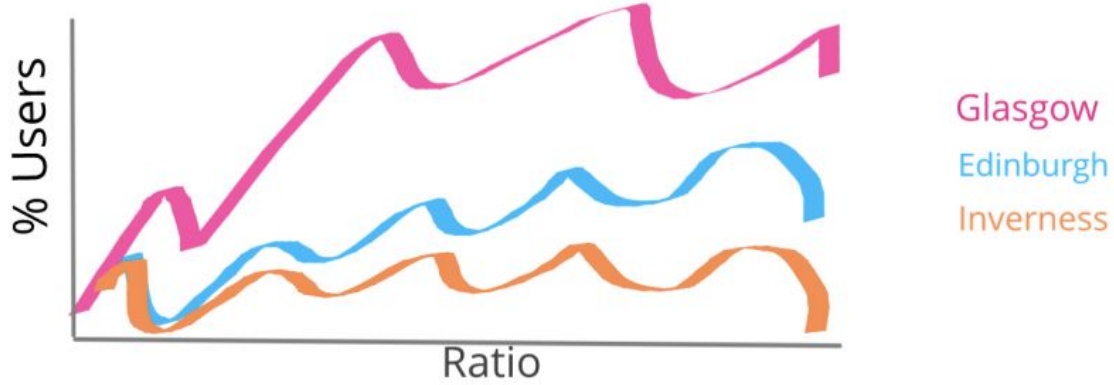
Scottish Catchments

- [ ] Edinburgh
- [ ] Inverness
- [ ] Glasgow
- [ ] Other

3 months
01-01-2020 -
31-03- 2020

Glasgow	1,400
Edinburgh	1,500
Inverness	500
Other	1,000





THE JOURNEY

Initial group meeting

Loose week plan

Saturday

Exploration of Data

Questions for Killian

Sunday

Data cleaning finalised

Assigned catchment areas

Monday

Brief with Killian

Plan Project

Begin Coding

Tuesday

Wednesday

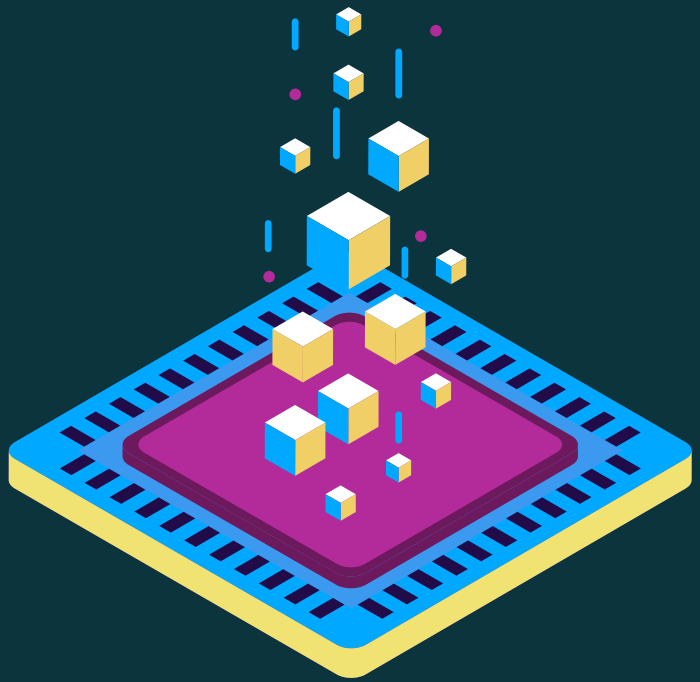
Finalising plots

Setting out Dashboard

Thursday

Bring shiny app together

Make it look nice



Functionality & Components

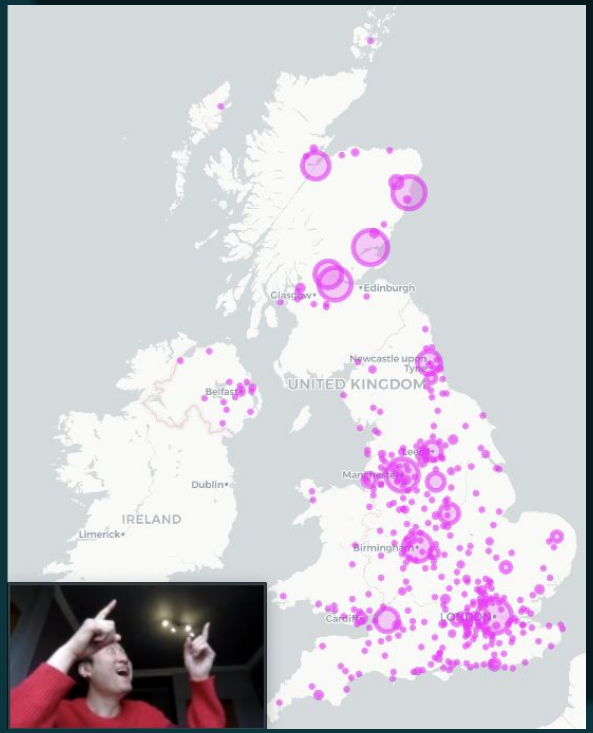
FEATURE GRAVEYARD

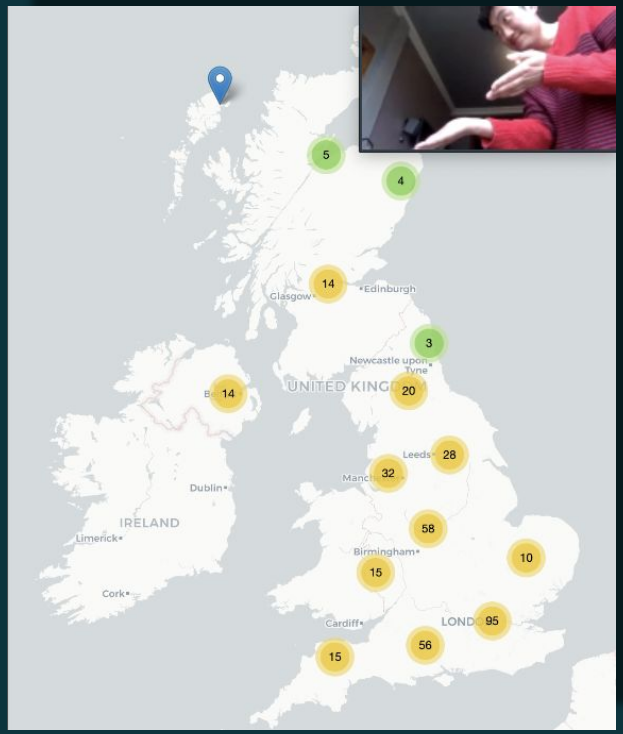
Monthly Data Insight

% Growth & Target plots

Map out user hotspots outside of catchments

Map out user hotspots





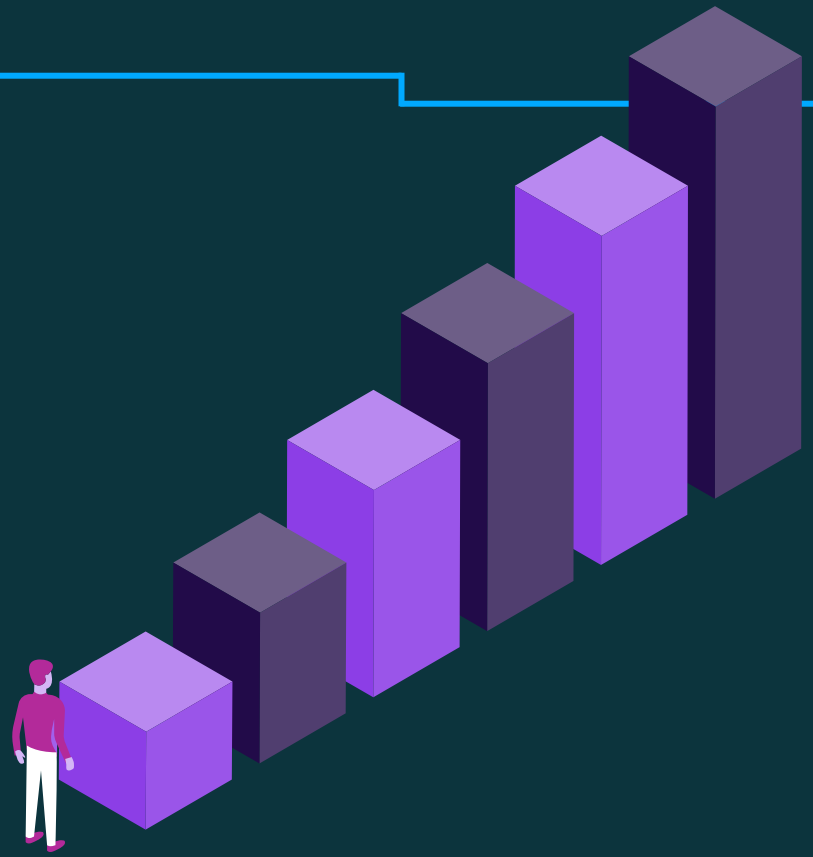
Improvements

There would be a fully functional Pro View tab which allows for further drilling down of the data

More check-ins

Overcomplicating plots

Be more proactive with git commits



ANY QUESTIONS?
